

# THE JOURNAL OF THORACIC AND CARDIOVASCULAR SURGERY

Vol. 148, No. 2, August 2014

## Condensed Contents

### Editorials

- 377** Preserving our international heritage of education in congenital heart surgery  
*C. D. Fraser, Jr*
- 379** Should integrated residency programs supplant traditional programs in cardiothoracic surgery?  
*V. Tchanchaleishvili and G. L. Hicks*

### Presidential Perspectives

- 381** Historical perspectives of The American Association for Thoracic Surgery: John Anton Waldhausen (1929-2012)  
*J. S. Heinle and J. W. Gaynor*

### Clinical Guidelines

- 387** SCAI/AATS/ACC/STS operator and institutional requirements for transcatheter valve repair and replacement. Part II. Mitral valve  
*C. L. Tommaso, D. A. Fullerton, T. Feldman, L. S. Dean, Z. M. Hijazi, E. Horlick, B. H. Weiner, E. Zahn, J. E. Cigarroa, C. E. Ruiz, J. Bavaria, M. J. Mack, D. E. Cameron, R. Morton Bolman III, D. C. Miller, M. R. Moon, D. Mukherjee, A. Trento, G. S. Aldea, and E. A. Bacha*

### Cardiothoracic Surgical Education and Training (EDU)

- 401** Nationwide survey of US integrated 6-year cardiothoracic surgical residents  
*A. H. Lebastchi and D. D. Yuh*
- 408** First nationwide survey of US integrated 6-year cardiothoracic surgical residency program directors   
*A. H. Lebastchi, J. J. Tackett, M. Argenziano, J. H. Calhoon, M. G. Gasparri, M. E. Halkos, G. L. Hicks, Jr, M. D. Iannetoni, J. S. Ikonomidis, P. M. McCarthy, S. L. Starnes, B. C. Tong, and D. D. Yuh*

### Acquired Cardiovascular Disease (ACD)

- 416** Resource use trends in extracorporeal membrane oxygenation in adults: An analysis of the Nationwide Inpatient Sample 1998-2009   
*B. G. Maxwell, A. J. Powers, A. Y. Sheikh, P. H. U. Lee, R. L. Lobato, and J. K. Wong*
- 422** Predicting early left ventricular dysfunction after mitral valve reconstruction: The effect of atrial fibrillation and pulmonary hypertension  
*R. Varghese, S. Itagaki, A. C. Anyanwu, F. Milla, and D. H. Adams*
- 428** Rhythm outcome predictors after concomitant surgical ablation for atrial fibrillation: A 9-year, single-center experience  
*S. Pecha, T. Schäfer, I. Subbotina, T. Ahmadzade, H. Reichenspurner, and F. M. Wagner*
- 434** Interpapillary muscle distance independently affects severity of functional mitral regurgitation in patients with systolic left ventricular dysfunction   
*K. Kim, S. Kaji, Y. An, T. Nishino, T. Tani, T. Kitai, and Y. Furukawa*
- 441** Management of concomitant mild to moderate functional mitral regurgitation during aortic valve surgery for severe aortic insufficiency  
*J. Y. Lim, S. H. Jung, J. B. Kim, C. H. Chung, J. W. Lee, H. Song, and S-J. Choo*
- 447** Restrictive mitral valve annuloplasty versus mitral valve replacement for functional ischemic mitral regurgitation: An exercise echocardiographic study   
*C. Fino, A. Iacovoni, P. Ferrero, M. Senni, M. Merlo, D. Cugola, P. Ferrazzi, M. Caputo, A. Miceli, and J. Magne*
- 454** Long-term outcomes of concomitant aortic and mitral valve repair  
*H. A. Vohra, R. N. Whistance, J. Hechadi, L. de Kerchove, H. Fuller, P. Noirhomme, and G. El Khoury*

(continued on page 4A)

- 461** Harvesting bilateral internal thoracic arteries using a novel subxiphoid approach versus the conventional lateral thoracic approach—results of an experimental study

*C. Ikeda, G. Watanabe, N. Ishikawa, H. Ohtake, and S. Tomita*

- 468** Smoking cessation before coronary artery bypass grafting improves operative outcomes

*U. Benedetto, A. Albanese, H. Kattach, D. Ruggiero, F. De Robertis, M. Amrani, and S. G. Raja, on behalf of the Harefield Cardiac Outcomes Research Group*

- 475** Pulmonary fibrosis on multidetector computed tomography and mortality in patients with radiation-associated cardiac disease undergoing cardiac surgery

*M. Y. Desai, K. Karunakaravel, W. Wu, S. Agarwal, N. G. Smedira, B. W. Lytle, and B. P. Griffin*

- 482** Transcatheter aortic valve replacement in patients with severe aortic stenosis who are at high risk for surgical complications: Summary assessment of the California Technology Assessment Forum

*J. A. Tice, F. W. Sellke, and H. V. Schaff*

- 492** Transcatheter aortic valve implantation in patients with severe aortic valve stenosis and large aortic annulus, using the self-expanding 31-mm Medtronic CoreValve prosthesis: First clinical experience

*F. Nijhoff, P. Agostoni, H. Amrane, A. Latib, L. Testa, J. A. Oreglia, F. De Marco, M. Samim, F. Bedogni, F. Maisano, G. Bruschi, A. Colombo, A. J. Van Boven, and P. R. Stella*

- 500** In which patients is transcatheter aortic valve replacement potentially better indicated than surgery for redo aortic valve disease? Long-term results of a 10-year surgical experience

*K. Pechlivanidis, F. Onorati, G. Petrilli, F. Santini, A. Milano, S. Torre, D. Calzaferri, A. Mazzucco, and G. Faggian*

- 509** Systematic review of the cost-effectiveness of transcatheter aortic valve implantation

*P. Indraratna, S. C. Ang, H. Gada, T. D. Yan, C. Manganas, P. Bannon, and C. Cao*

- 515** Clinical, biochemical, and genetic predictors of coronary artery bypass graft failure

*B. Yanagawa, K. D. Algarni, S. K. Singh, S. Deb, J. Vincent, R. Elituv, N. D. Desai, K. Rajamani, B. M. McManus, P. P. Liu, E. A. Cohen, S. Radhakrishnan, J. D. Dubbin, L. Schwartz, and S. E. Femes*

- 521** Total arch repair with open triple-branched stent graft placement for acute type A aortic dissection: Experience with 122 patients

*L-W. Chen, L. Lu, X-F. Dai, X-J. Wu, G-C. Zhang, G-F. Yang, and Y. Dong*

- 529** Surgical anterior ventricular endocardial restoration performed with total arterial revascularization: Serial 5-year follow-up

*H. Y. Hwang, J. S. Kim, K. R. Cho, and K-B. Kim*

- 536** Natural history of hypercoagulability in patients undergoing coronary revascularization and effect of preoperative myocardial infarction

*J. J. Edelman, C. J. Reddel, L. Kritharides, P. G. Bannon, J. F. Fraser, J. L. Curnow, and M. P. Valley*

- 544** Similar cerebral protective effectiveness of antegrade and retrograde cerebral perfusion combined with deep hypothermia circulatory arrest in aortic arch surgery: A meta-analysis and systematic review of 5060 patients

*Z. Hu, Z. Wang, Z. Ren, H. Wu, M. Zhang, H. Zhang, and X. Hu*

- 561** The frozen elephant trunk technique for retrograde acute type A aortic dissection

*K. Tamura, N. Uchida, A. Katayama, M. Sutoh, M. Kuraoka, and T. Sueda*

## Congenital Heart Disease (CHD)

- 566** Trends in Fontan surgery and risk factors for early adverse outcomes after Fontan surgery: The Australia and New Zealand Fontan Registry experience

*A. J. Iyengar, D. S. Winlaw, J. C. Galati, D. S. Celermajer, G. R. Wheaton, T. L. Gentles, L. E. Grigg, R. G. Weintraub, A. Bullock, R. N. Justo, and Y. d'Udekem*

(continued on page 6A)

- 576** An international multicenter study comparing arrhythmia prevalence between the intracardiac lateral tunnel and the extracardiac conduit type of Fontan operations

*S. Balaji, A. Daga, D. J. Bradley, S. P. Etheridge, I. H. Law, A. S. Batra, S. Sanatani, A. K. Singh, K. K. Gajewski, S. Tsao, H. R. Singh, S. Tisma-Dupanovic, S. Tateno, M. Takamuro, H. Nakajima, J. W. Roos-Hesselink, and M. Shah*

- 582** Outcomes after prolonged extracorporeal membrane oxygenation support in children with cardiac disease—Extracorporeal Life Support Organization registry study

*E. D. Merrill, L. Schoeneberg, P. Sandesara, E. Molitor-Kirsch, J. O'Brien, Jr, H. Dai, and G. Raghuveer*

- 589** Rate of increase in serum lactate level risk-stratifies infants after surgery for congenital heart disease

*K. R. Schumacher, R. A. Reichel, J. R. Vlastic, S. Yu, J. Donohue, R. J. Gajarski, and J. R. Charpie*

- 596** National trend in congenital heart disease mortality in China during 2003 to 2010: A population-based study

*Z. Hu, X. Yuan, K. Rao, Z. Zheng, and S. Hu*

- 603** When should a mechanical tricuspid valve replacement be considered?

*S. M. Said, H. M. Burkhart, H. V. Schaff, J. N. Johnson, H. M. Connolly, and J. A. Dearani*

- 609** Postoperative complications and association with outcomes in pediatric cardiac surgery

*H. S. Agarwal, K. B. Wolfram, B. R. Saville, B. S. Donahue, and D. P. Bichell*

- 617** Laryngopharyngeal dysfunction independent of vocal fold palsy in infants after aortic arch interventions

*R. R. Davies, S. W. Carver, R. Schmidt, H. Keskeny, J. Hoch, and C. Pizarro*

- 625** The incidence of vasoplegia in adult patients with right-sided congenital heart defects undergoing cardiac surgery and the correlation with serum vasopressin concentrations

*E. D. Wittwer, J. J. Lynch, W. C. Oliver, Jr, J. A. Dearani, H. M. Burkhart, and W. J. Mauermann*

- 631** Early postoperative bleeding is independently associated with increased surgical mortality in infants after cardiopulmonary bypass

*M. J. Wolf, K. O. Maher, K. R. Kanter, B. E. Kogon, N. A. Guzzetta, and W. T. Mahle*

## General Thoracic Surgery (GTS)

- 637** Fewer complications result from a video-assisted approach to anatomic resection of clinical stage I lung cancer

*D. J. Boffa, A. Dhamija, A. S. Kosinski, A. W. Kim, F. C. Detterbeck, J. D. Mitchell, M. W. Onaitis, and S. Paul*

- 644** Respiratory dynamic magnetic resonance imaging for determining aortic invasion of thoracic neoplasms

*Y. J. Hong, J. Hur, H.-J. Lee, Y. J. Kim, S. R. Hong, Y. J. Suh, and B. W. Choi*

- 651** Surgery of massive hemoptysis in pulmonary tuberculosis: Immediate and long-term outcomes

*Y. Zhang, C. Chen, and G.-n. Jiang*

- 657** Nuss repair of pectus excavatum after surgery for congenital heart disease: Experience from a single institution

*S. Li, S.-t. Tang, Q. Tong, Y. Yang, L. Yang, S. Li, and J. Pu*

- 662** Differentiating tuberculosis from sarcoidosis by sonographic characteristics of lymph nodes on endobronchial ultrasonography: A study of 165 patients

*S. Dhooria, R. Agarwal, A. N. Aggarwal, A. Bal, N. Gupta, and D. Gupta*

## Evolving Technology/Basic Science (ET/BS)

- 668** A novel emboli protection cannula during cardiac surgery: In vitro results

*L. Shani, O. Cohen, Z. Beckerman, I. Avrahami, R.-R. Nir, and G. Bolotin*

- 676** Effect of microRNA-145 to prevent vein graft disease in rabbits by regulation of smooth muscle cell phenotype

*M. Ohnaka, A. Marui, K. Yamahara, K. Minakata, K. Yamazaki, M. Kumagai, H. Masumoto, S. Tanaka, T. Ikeda, and R. Sakata*

- 683** Treatment of canine asthma by high selective vagotomy

*R. Liu, J. Song, H. Li, Z. Wu, H. Chen, W. Wu, and L. Gu*

- 690** Sulforaphane pretreatment prevents systemic inflammation and renal injury in response to cardiopulmonary bypass

*B. Nguyen, L. Luong, H. Naase, M. Vives, G. Jakaj, J. Finch, J. Boyle, J. W. Mulholland, J.-h. Kwak, S. Pyo, A. de Luca, T. Athanasiou, G. Angelini, J. Anderson, D. O. Haskard, and P. C. Evans*

(continued on page 8A)

- 698** Alternation of left ventricular load by a continuous-flow left ventricular assist device with a native heart load control system in a chronic heart failure model  
*M. Arakawa, T. Nishimura, Y. Takewa, A. Umeki, M. Ando, H. Adachi, and E. Tatsumi*
- 705** Progressive thermopreconditioning attenuates rat cardiac ischemia/reperfusion injury by mitochondria-mediated antioxidant and antiapoptotic mechanisms  
*C-Y. Chien, C-T. Chien, and S-S. Wang*

### Perioperative Management (PM)

- 714** Blood lactate level during extracorporeal life support as a surrogate marker for survival  
*S. J. Park, S-p. Kim, J. B. Kim, S-H. Jung, S. J. Choo, C. H. Chung, and J. W. Lee*
- 721** Same-day cancellation of cardiac surgery: A retrospective review at a large academic tertiary referral center  
*M. M. Smith, W. J. Mauermann, D. J. Cook, J. A. Hyder, J. A. Dearani, and D. W. Barbara*
- 726** Blood transfusions are associated with urinary biomarkers of kidney injury in cardiac surgery  
*U. A. Khan, S. G. Coca, K. Hong, J. L. Koyner, A. X. Garg, C. S. Passik, M. Swaminathan, S. Garwood, U. D. Patel, S. Hashim, M. A. Quantz, and C. R. Parikh*

### Cardiothoracic Imaging

- 733** Severe left atrium calcification (heart within a heart)  
*J. Germino and S. N. J. Pipavath*
- 735** Congenital multiple eventrations of the right diaphragm in adulthood  
*L. Wu, J. Shi, Q. Chen, and G. Jiang*

### Surgical Techniques

- 737** Use of indocyanine green to facilitate intersegmental plane identification during robotic anatomic segmentectomy  
*A. Pardolesi, G. Veronesi, P. Solli, and L. Spaggiari*

- 739** Intraoperative indocyanine green fluorescence lymphography to detect chylous leakage sites after congenital heart surgery  
*T-I. Chang, Y-S. Chen, and S-C. Huang*
- 741** Transapical JenaValve in a degenerated Freedom SOLO bioprosthesis  
*L. W. Wollersheim, R. Cocchieri, P. Symersky, and B. A. de Mol*
- 743** Intraoperative pulmonary flow study for decision making in the comprehensive stage II hybrid procedure  
*M. Trezzi, V. M. Bandisode, M. N. Kavarana, and S. M. Bradley*
- 745** Use of polytetrafluoroethylene vascular graft to cover the kinking protector of left ventricular assist device facilitates later pump exchange  
*E. V. Potapov, R. Hetzer, and T. Krabatsch*
- 746** Minimally invasive rib resection with preservation of periosteum using 1-port video-assisted thoracoscopic surgery  
*S-H. Chon, K. O. Kang, and D. Y. Kim*
- 748** Maximized left atrial dome approach for left atrial tumor resection  
*S. T. Hussain, M. Alsalihi, E. H. Blackstone, and G. B. Pettersson*

### Online Only: Case Reports

- e141** Tricuspid valve reconstruction with the extracellular matrix tube technique: A word of caution  
*Y. Toyoda, M. A. Kashem, K. Hisamoto, and A. Shiose*
- e143** Retroesophageal total anomalous pulmonary venous connection in a neonate  
*L. A. Caldarone, C. A. Caldarone, and L. A. Vricella*
- e145** A novel hybrid technique for transcatheter pulmonary valve implantation within a dilated native right ventricular outflow tract  
*F. C. Travelli, C. S. Herrington, and F. F. Ing*
- e147** Salvaging an accidental superior vena caval transection during a right pneumonectomy by creating a Glenn shunt: A case report and review of the literature  
*K. Dasbaksi, K. Mukherjee, E. Saha, and P. Mukherjee*
- e150** Transhiatal esophagectomy after previous right pneumonectomy  
*J. B. Velotta, C. R. Vasquez, and D. J. Sugarbaker*

(continued on page 9A)

751 **Letters to the Editor**

756 **Notices of Correction**

757 **Announcements**

25A **Reader Services**

Full-text online access to *The Journal of Thoracic and Cardiovascular Surgery* is now available for all print subscribers. See page 467 for details.

### Cover Photographs

*Left:* From *Maximized Left Atrial Dome Approach for Left Atrial Tumor Resection*. Diagram showing the surgical approach. Incision lines for the modified dome approach to the left atrium.

*Center:* From *Total Arch Repair With Open Triple-Branched Stent Graft Placement for Acute Type A Aortic Dissection: Experience With 122 Patients*. Postoperative results on

computed tomography images. The false lumen of the arch and descending aorta was completely closed by postoperative thrombus formation.

*Right:* From *Use of Indocyanine Green to Facilitate Intersegmental Plane Identification During Robotic Anatomic Segmentectomy*. Intraoperative photographs before (*left*) and after (*right*) indocyanine green injection.
